Hinton Kids for Success Childcare Philosophy

At Hinton Kids for Success, we value providing inclusive, supportive, and developmentally appropriate care for every child that we welcome to our program. Our early learning and childcare philosophy is based on the framework as outlined in the *Early Learning and Childcare Act*. Our philosophy statement is as follows:

"Hinton Kids for Success is an inclusive play-based learning environment where children are safe, respected, and nurtured. Each child has a unique background, culture, ability, and learning stage; this diversity is valued and we want every child to flourish."

More specifically, the six outcomes of play-based development, protection, diversity, inclusion, developmentally-appropriate care, and parental involvement are incorporated into the Hinton Kids for Success Policy Manual, as outlined in the *Early Learning and Childcare Act*:

- a) children should be encouraged in having care and play experiences that support their development and learning;
- b) the child is to be protected from all forms of physical punishment, physical and verbal abuse and emotional deprivation;
- c) diversity in
 - a. the background and circumstances of children in the program and their families, including those who may be experiencing social or economic vulnerability, and
 - b. the abilities of the children in the program is to be respected and valued;
- d) the child's familial and Indigenous or other cultural, social, linguistic and spiritual heritage are central to the child's safety, well-being and development;
- e) care of the child must be appropriate to the child's mental, emotional, spiritual and physical needs and stage of development;
- f) involvement and engagement of parents and Caregivers supports accountability of child care program providers, monitoring of child care programs and maintenance of good quality child care programs
