## **—SECTION 2: GENERAL APPLICATION FORM & PROJECT PROPOSAL—**

Once completed, the application form, along with the additional documents requested, will constitute your complete funding application.

Instructions and helpful tips to complete the application form are provided below. The application form is available at [www.hinton.ca/cgp](http://www.hinton.ca/cgp) during intake periods. If you require further assistance, please contact the Corporate Liaison Coordinator (listed on the cover page).

Note: Please read the entire Applicant's Guide before completing the application form.

### **PART A: Applicant Information**

Complete all required fields as well as all optional fields that may apply. The Contact Person is the person that is leading the project.

### **PART B: Project Summary**

The Project Summary section of the form is a key element of your funding application. This is where you will describe what your project will achieve, how it will be achieved, who will benefit, and why it is important. The merit and viability of the project/activity must be evident throughout the proposal.

#### **Tips for completing Part B:**

- ◆ Be clear, specific and to the point; avoid unnecessary repetitions.
- ◆ Spell out acronyms the first time they are used.
- ◆ Ask someone who is not involved in your project to read your proposal and confirm they clearly understand what the project will achieve.

### **PART C: Community Benefit/Financial Need and Ability to Manage Project**

The following provides the applicant with some *guiding* questions when providing answers for this part of the application form.

**Needs assessment, analysis and planned evaluation** (i.e. have you completed a needs assessment for the project? If not, how was the need determined? What measures are in place that will determine whether the project will be successful or not?)

**Cost-benefit value** (appropriate use of municipal revenue from Automated Traffic Enforcement proceeds for the community) (i.e. is there a clear indication of the expected cost-benefit to the community? How does the project demonstrate an appropriate use of municipal funds?)

**Degree of financial need of the applicant/how much self-help** (i.e. is your organization new? Is the overall sustainability affected by the success of this project? Have you received funding from the Town in the past for this project? Have you received other grants? Is your self-help evident and appropriate? Will funds be used to leverage other grants or revenue sources? Have other sources of support such as donations, manpower, or gifts-in-kind been sought?)

**Demonstration of thorough project plan** (i.e. provide a timeline for the project indicating a starting date and completion date for the project. Will the project be in phases or stages? If so, how many? Will each phase function on its own or rely on additional funding for the next phase to be operational? Is the project a standalone project? Are costs linked to measurable targets and outcomes? Will the grant funds significantly contribute to the business plan? Are the mission, vision, objectives, and short-term/long-term strategies linked?)

**Number of people impacted and how** (includes special consideration) (i.e. how does the project impact the overall community, if at all? Is there a specific demographic that will benefit? If so, who and how many? Does the project impact a small number but have a high impact, or a large number with a low impact?)

**Financial stability and ability to raise matching funds** (i.e. how long has your organization been operating? Do you have a fundraising strategy? Is there a solid volunteer/membership base? State your ability to raise matching/additional funds. Financial statement(s) demonstrates healthy organization)

**Credible previous management of projects or activities** (i.e. is there a history of successfully completed projects? Are the past projects similar in scale to the current project? What are the qualifications, skills, and experience of the managing personnel or volunteers?)

## PART D: Project Budget

When completing Part D, ensure your budget is balanced (i.e. the projected total expenses are equal to the projected total revenue).

## PART E: Supporting Documentation

Up-to-date information is required when submitting financial statements and list of executives. Society documentation must include your last filed Annual General Return that states your society is in good standing. In the event that your group is registered and you are sponsoring a non-registered group, a motion from your board is required indicating approval to sponsor the ineligible group.

## **—APPENDIX A: GLOSSARY—**

**Automated Traffic Enforcement Proceeds:** All net municipal revenues from automated traffic enforcement are to be allocated in a manner that enhances and preserves our community but considers the possibility that this revenue stream may be significantly reduced and/or discontinued at any point in time and in a way that is beyond the control of the Town of Hinton (excerpt from Policy #078 Automated Traffic Enforcement Proceeds).

**Community Grant Funding Advisory Committee:** A committee appointed by Council with the following duties (excerpt from Bylaw #1085):

The Hinton Grant Funding Advisory Committee shall:

- ◆ Review, rank and provide recommendations to Council on eligible applications under the Community Grant Program using council-approved eligibility requirements and ranking criteria and weighting;
- ◆ Make recommendations that reflect the best interests of the community and align with Town Council priorities and vision;
- ◆ Appear as a delegation before Council to provide their recommendation for Council decision; and
- ◆ Make recommendations to Council related to, but not limited to, Community Grant Program annual budget allocations, processes, and program guidelines.

**Developmental Stage:** the first five years of incorporation or where a significant mandate change has occurred causing similar vulnerabilities.

**Fiscal Year:** A 12-month period used by an organization as an accounting period. For example, the provincial government's fiscal year runs from April 1 to March 31 of the following year.

**Goal:** The primary purpose of a project. A goal is a statement of desired outcomes to be achieved over a specified period of time.

**Ineligible Funding Requests:** Includes items such as: debt retirement, deficit reduction and/or retroactive grant funding, operating (core) costs that are not linked to measurable targets and outcomes, for-profit commercial ventures or private organizations, endowments, projects/activities whose beneficiaries are solely/primarily outside Hinton (the project/activity may occur outside Hinton boundaries, however, the majority of the project/activity benefit must be to Hinton residents).

**In-Kind Contribution:** Goods or services donated to a project (by the recipient or by a third party) without expectation of compensation. In-kind contributions are considered real contributions to the cost of the proposed activities but are not reimbursable. Donated goods and services may be considered as in-kind contributions if they are essential to a project's success; if they would otherwise have to be purchased by the recipient; if they can be measured at fair market value (i.e. in relation to similar goods and services); and if they are balanced by an equal expense in the project budget.

**Operating Costs:** Expenses such as rent, utilities, telephones, office supplies, postage, bank charges, bookkeeping, and salaries or professional fees related to general administration and recurring operational requirements.
